

Dear Senator Cantwell,

Thank you for your reply. I read your statement for the Seattle FCC hearing.

If I remember correctly, Dr. Copps was the Commissioner who was holding hearings on his own dime, unsupported by the Chairman and the FCC, who were holding no hearings. He was interviewed on NPR, expressing grave concerns about the lack of process, and the autocratic rule of the Chair.

While your statement expresses my views and concerns, I need to ask what you can and will do to stop this undemocratic process that will radically affect the media and free speech in a democratic society?

Before it's too late, or we have to go through extensive and expensive litigation.

Thank you for addressing my concerns.

David
